

Everyone, Meet

NEIL SINGH

Neil is a result-oriented leader in technology executing talent, innovation, investment and business growth outcomes. Proven track record of developing impactful partnerships and achieving growth objectives. Strong collaboration and relationship-building skills to foster successful partnerships with internal and external stakeholders.

Originally from New Zealand, Neil's career has spanned nearly 25 years starting in 1999, as a software developer and progressing to enterprise level projects in network infrastructure, databases, hardware logistics and more. Neil has also had the experience of running a few successful startups. Neil migrated to the US in 2016 settling in the State of Ohio.

Neil collaborates with the nation's foremost emerging technology leaders, driving substantial thought leadership in the technology sector. His strategic contributions to economic development have played a pivotal role in elevating and empowering the technology landscape in Northeast Ohio, fostering remarkable growth in investment and workforce initiatives.

Neil has demonstrated experience in AI, Cybersecurity, Semiconductors, IoT, Digital Twins, AR/VR and Cloud platforms. Neil has continued to stay relevant in the domain of Emerging Technologies at a national level in the US and is deeply networked with some of the industries top leaders.
